

DROUGHT CONDITIONS

Drought status

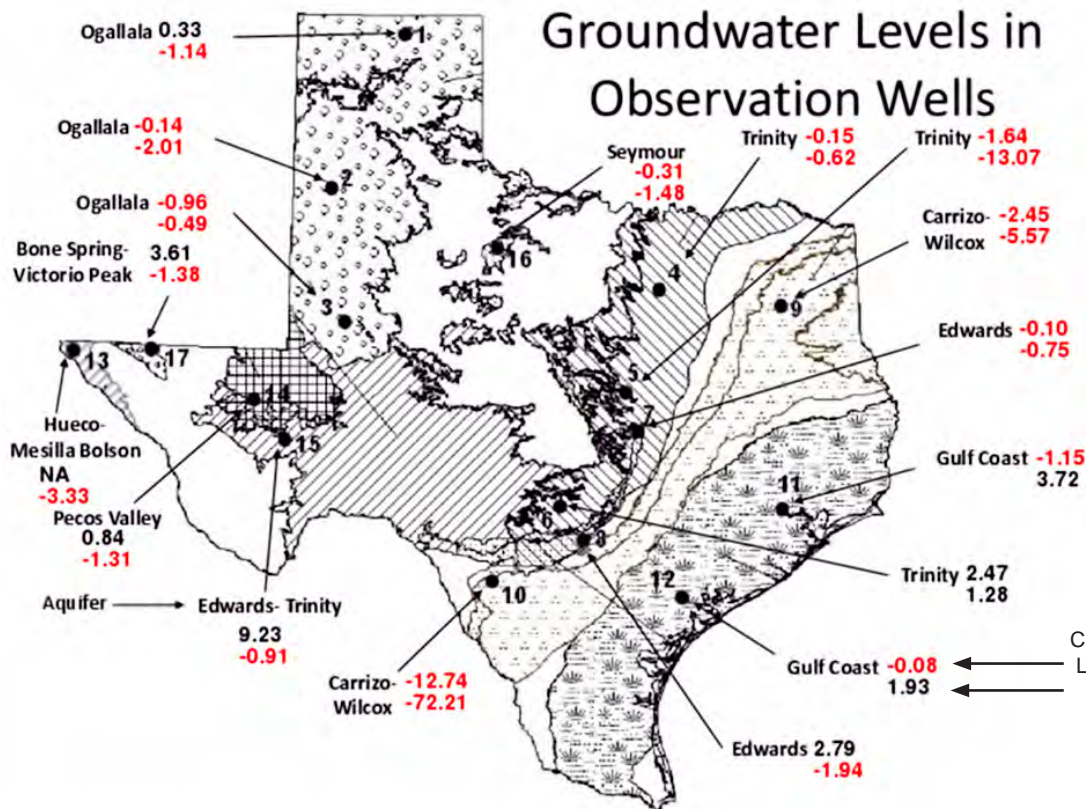

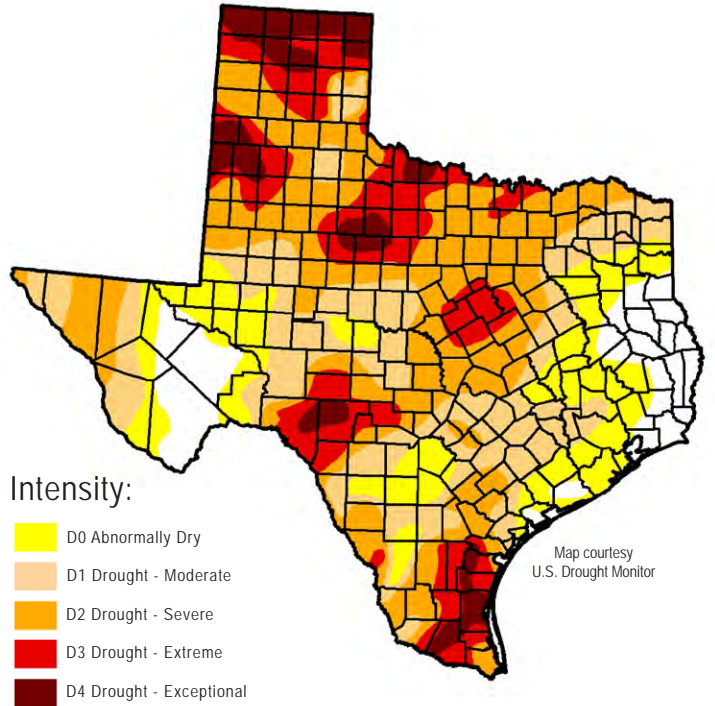

Those two weeks of improvement felt good, but we're back into a worsening of conditions, however slightly. Statewide reservoir storage is down about 64,000 acre-feet over the past week with declines in eight out of nine climatic regions.

Drought statistics

- 91% of state currently in drought
- 91% a week ago
- 86% three months ago
- 99% a year ago

Reservoir statistics

- Statewide: currently 67% full
- 67% a week ago
- 67% three months ago
- 66% a year ago
- Normally 81% at this time

Groundwater levels declined in most of the major aquifers over December, unusual for this time of year when we usually see seasonal rebounds.
