

DROUGHT CONDITIONS

Drought conditions and reservoir levels are relatively unchanged over the past week. What did change was the seasonal drought outlook, which is now much more pessimistic than previous projections. Where the state is in drought, drought is expected to continue or intensify over the next three months.

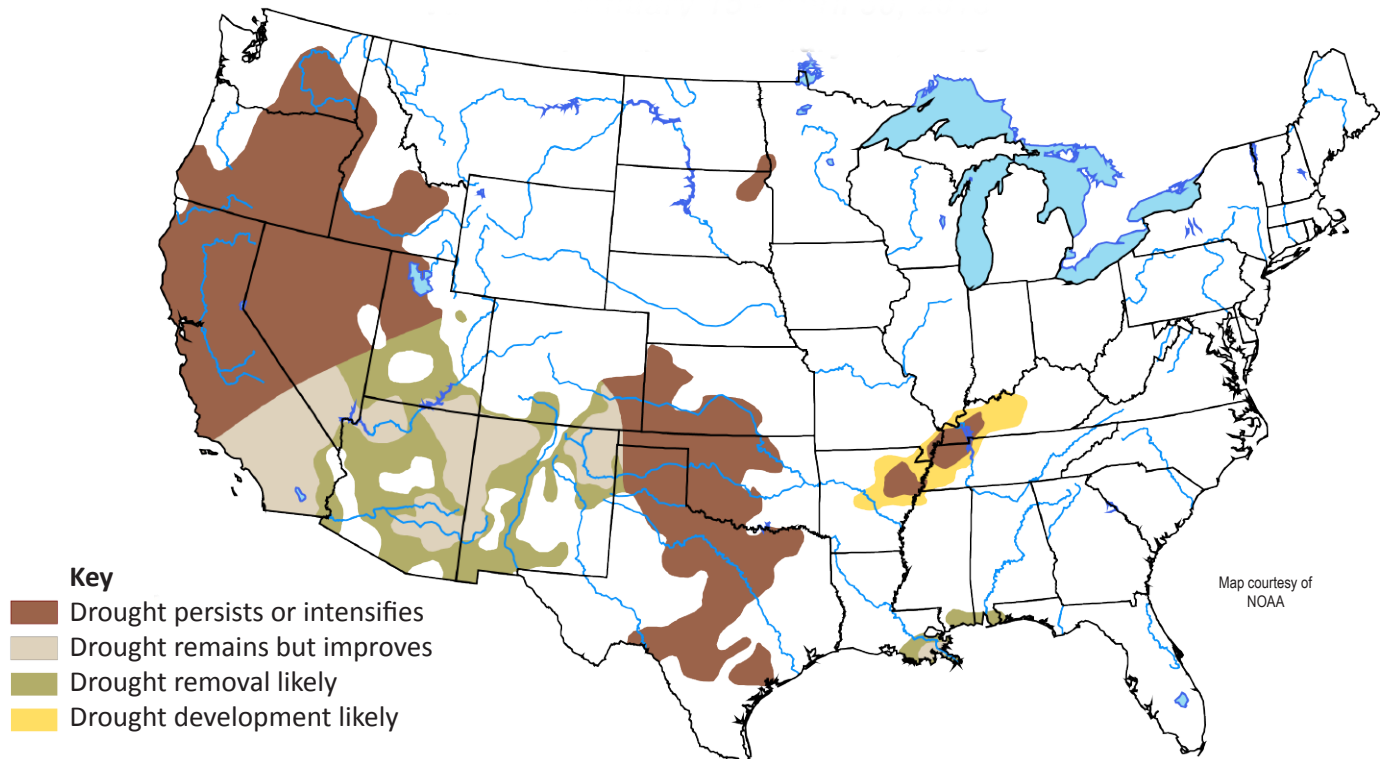

Drought statistics

- 40% of state currently in moderate to exceptional drought
- 42% a week ago
- 48% three months ago
- 44% a year ago

U.S. SEASONAL DROUGHT OUTLOOK

This map predicts drought tendencies from January 15 through April 30, 2015.
