

Water Weekly

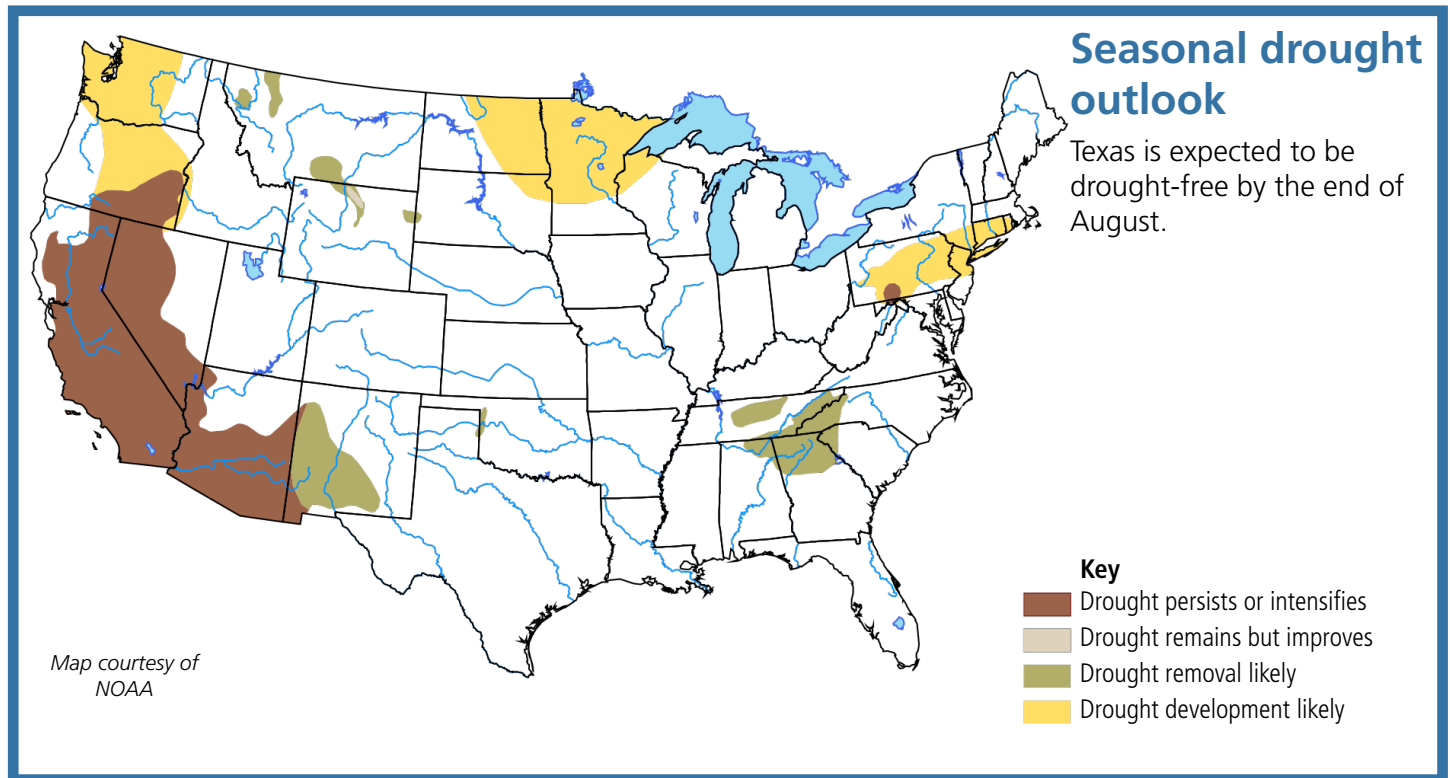

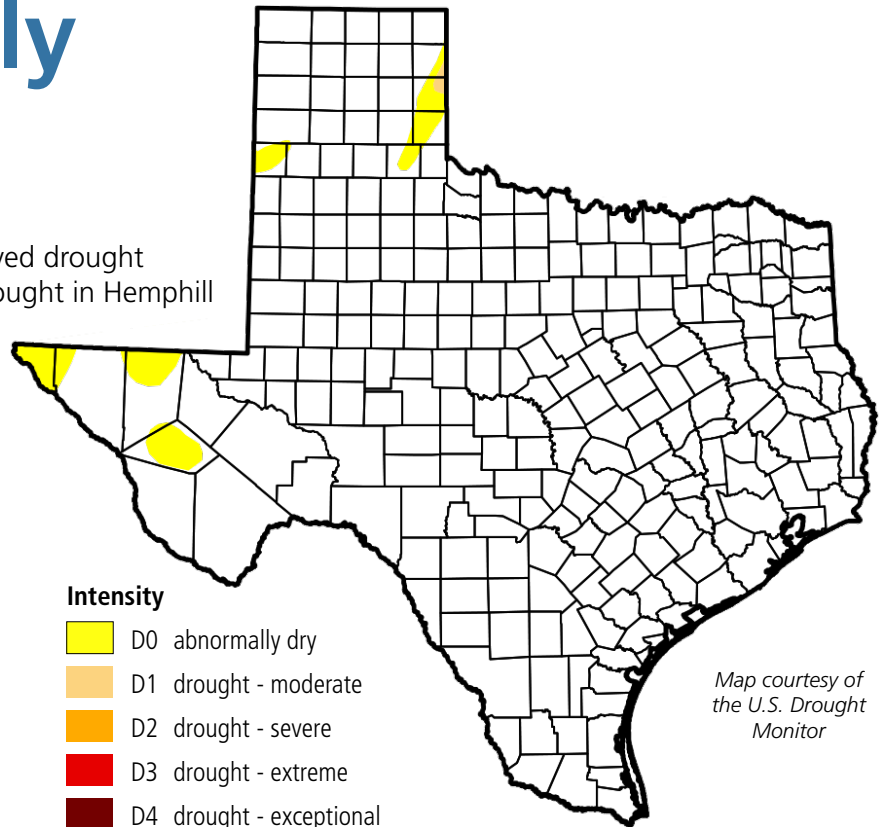

For the week of 05/23/16

Water conditions

Recent rains across Texas have greatly improved drought conditions with only a mouse's squeak of drought in Hemphill and Wheeler counties. There are still patches of abnormally dry conditions in the Panhandle and Far West Texas, but the rest of the state shows no hint of drought coming or going.

Drought conditions

- ◆ 0.1% now
- ◆ 0.7% a week ago
- ◆ 4% three months ago
- ◆ 15% a year ago
